

License Plate Technology

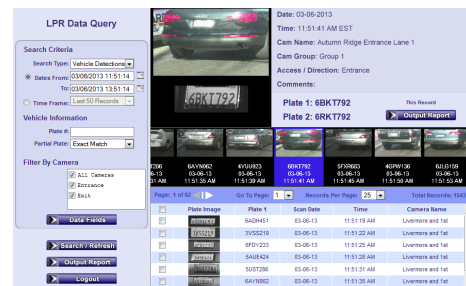

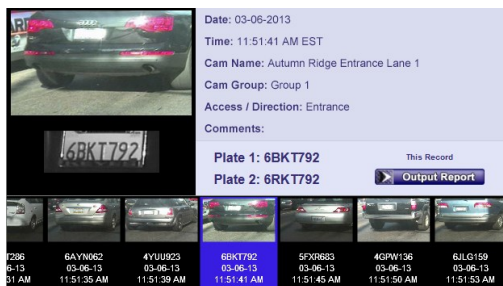

Homeowner Associations Seminar

“The ALPR system is one of the greatest advancements for law enforcement since the fingerprint”

Chief Deputy Tim Lentz

LaTech Security, the local leader in License Plate Technology (LPR), has been actively working with Law Enforcement for years. This technology has become so popular with solving crimes, that Home Owners Associations have requested it in their subdivisions.

Why not? Most burglaries take place during the day, when residents are at work. This Technology captures a photo of the vehicle and the license plate that enters or exits the development.

There are numerous types of license plate readers. The difference in this LPR product is that it alerts Law Enforcement should a vehicle, listed on their Warrant's list, enter your neighborhood. Agencies would upload this list periodically.

Knowledge of a criminal's entry, prior to the offense, makes this technology PROACTIVE instead of reactive.

We invite you to bring your questions and comments to the following Seminar:

Where: LaTech Security
10741 Coursey Ct; Baton Rouge 70816

When: March 19, 2013 5:30pm

Refreshments will be served at 5:30. Meeting will start at 6pm.

I-12 to Airline Hwy South; Turn left at Coursey Blvd; Turn left at Coursey Ct—at Jimmy John's
