It should be noted that two years ago Nicholls was proactive in terminating low completer programs and those associate programs were not 2+2 into the four year curriculum. A total of seven programs were approved for termination by the Board of Regents in 2009 including:

Studies

1. A.S. in Legal Assistant
2. A.S. in Criminal Justice
3. B.S. in Agribusiness
4. B.S. in Computer Science
5. B.S. in Manufacturing Engineering Technology
6. B.A. in French
7. B.A. in French Education - Grades K-12

In 2010 the Associate Degree in Cardiopulmonary Care Science was also terminated. The termination of these eight programs led to termination of faculty positions and resulted in cost savings to the university. As a result of this thorough review and subsequent elimination of programs in 2009-10, Nicholls is requesting to consolidate or continue all but one program for this review. The current programs viewed as "low completer" are all either crucial to workforce development of our region and/or are unique to the state and/or are vital to progressing the nationwide agenda to build enrollment in "STEM" related programs (Science, Technology, Engineering and Mathematics). Nicholls continue to develop and implement strategies to continue to increase enrollment and retention in these programs.
