To all,

This is another embarrassment for the police jury caused by Juror Ted Nelson. This video shows how this man will lie without any hesitation. He goes from lying against the citizen to saying that he couldn't fix the problem. This is simply another classic example of Nelson lying instead of doing the honorable thing and admit that he did not do what he should have done and then fix it. I commend President Bueche for stepping in and making sure this problem will now be fixed.

The manner in which Nelson handled this problem will now cost the tax payer more money since the damage has increased due to the lack of action taken to mitigate the problem.

The public has had enough of this man's incompetence. The public is also not happy that the president has reappointed Nelson chairman of a committee that oversees the department that was cited multiple times in the audit that we recently received.

I will add to the agenda again about Nelson's actions. However, I will now ask for a resolution to encourage President Mel Bueche to remove Nelson from the committees that he sits on.

The jury has been held hostage long enough by the tactics of Juror Ted Nelson. What other evidence do you need to make the right decision?
